Oncology trials with at least one site in the state

Ranking

ClinicalTrials.gov snapshot of 2026-10-16: 1,908 interventional oncology trials with a site in Brazil. A trial with sites in several states is counted in each. 55 trials have at least one site whose state could not be identified.
States assigned from the registry's state and city fields with the IBGE municipality list. Boundaries: IBGE state mesh.
